Dream Evil, Into The Moonlight

Altogether why! I can't believe my eyes what I see standing in front of me

Crowd of thousand Men who've come to make a stand Here we are, under the seven stars

Ride, side by side touching the fire in the soul of ours, tonight as we ride into the moonlight fear, step aside run and hide I'm not afraid to risk my life as we ride into the moonlight

halfway home we face the dark ones eye to eye step aside! Unless you want to die

Night is cold and black a blind man leads the blind we can't see the forest for the trees

Ride, side by side touching the fire in the soul of ours, tonight as we ride into the moonlight fear, step aside run and hide I'm not afraid to risk my life as we ride into the moonlight

Ride, side by side touching the fire in the soul of ours, tonight as we ride into the moonlight fear, step aside run and hide I'm not afraid to risk my life as we ride into the moonlight
