

# Dream Evil, No Way

It will outlive us all booth you and I  
No rules without exception this one can not die  
Regardless of genres expression shape and form  
It sometimes just catches it's breath before the storm

It is only rock'n roll

No way- it won't happen  
No way- but they can try  
No way- to kill my darling  
Rock'n roll will never die

Something's go out of fashion wile others last  
History repeats it self in the future as in the past  
Regardless of genres expression shape and form  
We strike wile the iron is hot not lukewarm

It is only rock'n roll

No way- it won't happen  
No way- but they can try  
No way- to kill my darling  
Rock'n roll will never die

Just reinvent it self time after time  
It has been done before time after time...

No way- it won't happen  
No way- but they can try  
No way- to kill my darling  
Rock'n roll will never die

No way- it won't happen  
No way- but they can try  
No way- to kill my darling  
Rock'n roll will never die
