

Dream Evil, Only For The Night

How I hate to see you leave tomorrow
Leave behind a man in pain and sorrow
Silly me, who thought we'd be together
But tonight we'll say goodbye forever

Only for the night
Take me to the moonlit sky
Only for the night.

Even though I do respect your wishes
All we had in a whiff has turned to ashes
You and I were perfect for each other
Can't you see, you and I must be together.. but!

Only for the night
Take me to the moonlit sky
Only for the night.

This is wrong - Don't you see
We belong - you and me
How I wish that you could change your mind

Only for the night
Take me to the moonlit sky
Only for the night.

This is wrong - can't you see
We belong - you and me
How I wish that you could change your mind
Only for the night
