

# Dream Street, Don't Leave Me

My name is rudi oh  
That's what my family called me  
Ever since the day when they just walked away  
Ever since they left me  
If I could talk to them just one more time  
This is what I would tell them

(chorus)  
Don't leave me in the dark night all alone  
Don't leave me by myself

You're my mother and you are my father  
Please, please don't leave me

When I realized how much I missed  
Nobody to tuck me in at night or whisper in my ear  
&quot;i love you...&quot;  
If I could talk to them just one more time  
This is what I would tell them

(chorus x2)
