

Dream Street, My Life

Living live with your eyes closed
Expect to fall and it's gonna hurt
With my pain i've opened my eyes
My tough luck has made me realize that

[chorus]

This is my fight
To get up and stand in the light
Here I am
Taking a stand
Here I am
This is my life, it's my life

And as time slowly takes me away
It's hurts just to watch as it pulls me
Each and everyday
So now's the time to turn my head on you and
To take control
And do what i want to do cause

[chorus]

You want to know who I am
Well there's too many of me to know
But you can hear me, I know you will
My soul spills out as my heart begins to spill
If you can feel this the way i do
Then you'll love it the way that i do

[chorus 2x]
