

# Dreamaker, Enemy

You! My nightmare  
You! My black air  
Without blame I was betrayed  
I feel the rage  
As a wild gale  
Biting all my lanes  
I'll tell you bye! With a hand  
In my face a big smile  
Revenge has begun...  
A sea of hate surrounds me  
You thrust a dagger on my back  
From now on till the end of all times  
You! my enemy  
Enemy always be...  
You don't cross my way because  
You are my enemy  
Hating your name  
Scoring yourself  
In your world of lies and shame  
I have to fight  
And to survive in this game
