Dreamtale, If You Will Go

I close my eyes and hear your voice You will always be my only choice As you speak the words of love I sense the warmth and feel so calm I barely feel your fingertips Across my skin and on my lips The feeling that you are close to me Makes me shiver, makes me weep [Chorus] No one is more than you

Nothing compares to you If you give my love away You'd better know the game you play 'Cause my heart will loose a home If you will go

[Solo]

I wish this night to last forever And we could always be together But by the dawn you'll be gone And once more I'll be left all alone Before you go my precious one My only love, my brightest sun I have one wish before you fly Please come back tomorrow night [Chorus x2]
