Dreamtale, We Are One

Sun is closing it's eyes on us I remember your touch Close me into your arms Give me hope

Come my darling, with me this night Let's flt like birds in the sky For the first time you'll be mine In this magical night

I embrace you the final time As moon paints the night In shadows and darkness You are my light

Forest whispers your name As I kiss your sweet lips For the las time you are mine In this magical night

[Chorus:] Dance between the rainbows In the fields of love, Emotions burning like fires In the morning sky, In twilight we are one!

Under the silvery light I have to let you go And you'll fly free To the silent night

We are one forever Together in our hearts The memory of you and I Will never fade away

[Chorus]
