

# Dredg, Jamais Vu (New Song) Heard In Cali

i look to the sky,  
Summer foggy black  
Gotta reappear up there.  
to where I want to be, in her university  
I found, I found , a way to recall it  
I found, I found, a way to resolve this.

I'm not inside you  
You're all around me  
Is this what you needed to have...to comfort you?  
I waited all this time without you....
