

DRENCHILL, Starlight (feat. Jorik Burema)

Blood moon blinding our eyes
Bad thieves, we're stealing stars
Young love got us on fire
By your kiss I die
Just two kids lost in space
Looking for a place we can stay
A galaxy far, far, far far away

We are starlight
We're waiting for the twilight
We're dancing in the moonlight
And burning in the sunlight
'Cause you are and me are starlight
We're waiting for the twilight
We're dancing in the moonlight
And burning in the sunlight
'Cause you are and me are
Starlight
Twilight
Moonlight
Sunlight
'Cause you are and me are starlight
We're waiting for the twilight
We're dancing in the moonlight
And burning in the sunlight
'Cause you are and me are
Starlight

Let fingers intertwine
Not enough of wasting time
Wild hearts out of control
We just wanna let go

Just two kids lost in space
Looking for a place we can stay
A galaxy far, far, far far away

We are starlight
We're waiting for the twilight
We're dancing in the moonlight
And burning in the sunlight
'Cause you are and me are starlight
We're waiting for the twilight
We're dancing in the moonlight
And burning in the sunlight
'Cause you are and me are
Starlight
Twilight
Moonlight
Sunlight
'Cause you are and me are starlight
We're waiting for the twilight
We're dancing in the moonlight
And burning in the sunlight
'Cause you and me are
Starlight
