

# Drivin N Cryin, Catch The Wind

catch the wind, until it blows  
it never laughs , it never shows  
carries thoughts, around the world  
tornado lanes, hurricanes  
southern breezes, northern bite  
salty florida, western white  
fly the kite, lost balloon  
follow the river, carry a tune

catch the wind, until it blows  
it never laughs, it never shows  
catch the wind, and stop all time  
let it go and time will flow

whirlwinds of dust, the dying crops  
brings life or death, we're at your mercy  
windmills spinning , leaves are hissing  
stop by a building, go around  
blowing clouds, strange formations  
looks like your sister, looks like your brother  
building walls of snow, wearing heart on stone  
creating canyons, easing ones

catch the wind, until it blows  
it never laughs, it never shows  
catch the wind, and stop all time  
let it go and time will flow

sing me your song
