

# Drop Dead, Gorgeous, E.R.

You won't have to wait in line  
watch them wheel her in  
all she can see is white  
face down on the mattress  
hurry doctor young, won't want to miss the party  
ankle films are back on cupid  
a singing telegram slipped on some ice  
we need a doc in radiology  
inject an IV contrast  
a patient named Jones  
BP's 50 over 70, BP's 90 over 50  
pulse is 120  
Pupils fixed and dilated she's beginning to flat line  
she's not going to make it  
I can feel your heart stop  
charge the paddles to 15: CLEAR  
we need a bandage to stop the bleeding
