

# Drop N Harmony, It's All Yours

V1

Early in the morning  
I'm awakened from my sleep  
You're kissing and you're touching and you're pressing on my body  
And you're smiling up at me  
Good morning to you my lady  
How can I oblige  
When you tell me that you want an instant replay  
Of how we got down last night

PRE

I know what, you're doin  
Lady I've paid attention  
And if I told you that its all yours  
Then tell me what you're waiting for

CHORUS

You want my love, you want my time  
You know its all yours baby  
As long as I know its just you and I  
You know we can get down baby  
You want this body, you want these lips  
You know its all yours baby  
As long as I know its just you and I  
You know we can get down lady

V2

Chillin with our homies girl  
And it aint hard to tell  
The sexy way you look me up and down  
Says let's go somewhere else  
Or 2:30 on Monday  
When you called me on the phone  
You said at work you couldn't get a damn thing done  
Cuz you wanted to to be with me alone

PRE

I know what, you're thinking  
Gimme some of that affection  
Well if I told you that its all yours  
Then tell me what are you waiting for

CHORUS

(Drop it on now help me take it to the bridge now)

BRIDGE

Early in the morning (woo)  
Or late in the evening  
Whenever you want it, you need it, you got it, I'mma break you off  
We can do it in the bedroom  
We can do it out in public  
Wherever you want it, you need it, you got it, I'mma break you off

CHORUS
