

# Dropkick Murphys, Alcohol

Got the time when the sun goes up  
We'll drink until we drop  
My love for hundred brews  
That soothes, the foot's been dropped  
Not enough for the men on the walk  
I drive and drink till I drop

No doubt about it  
Can't live without it  
No doubt about it  
I can't live without it, alcohol  
Alcohol

Why it's my destiny?  
You get the beer  
We get the time  
You get the coke, gimme a line

No doubt about it  
Can't live without it  
No doubt about it  
I can't live without it, alcohol

Got the time when the sun goes up  
We'll drink until we drop  
I drive and drink till I drop

You get the beer  
We get the time  
You get the coke, gimme a line

No doubt about it  
Can't live without it  
No doubt about it  
I can't live without it  
Alcohol
