Dropkick Murphys, Alcohol

Got the time when the sun goes up We'll drink until we drop My love for hundred brews That soothes, the foot's been dropped Not enough for the men on the walk I drive and drink till I drop

No doubt about it Can't live without it No doubt about it I can't live without it, alcohol Alcohol

Why it's my destiny? You get the beer We get the time You get the coke, gimme a line

No doubt about it Can't live without it No doubt about it I can't live without it, alcohol

Got the time when the sun goes up We'll drink until we drop I drive and drink till I drop

You get the beer We get the time You get the coke, gimme a line

No doubt about it Can't live without it No doubt about it I can't live without it Alcohol
