

Dropkick Murphys, Fightstarter Karaoke

Riot tonight everybody let's go!
Gonna start a fight but with who? I don't fucking know
Riot tonight everybody let's go!
Gonna start a fight but with who? I don't fucking know

It doesn't take a big man to knock somebody down
Just a little courage to lift him off the ground

This world is not what it seems
These beer balls are ruining my dreams

Riot tonight, everybody let's go!
Gonna start a fight but with who? I don't fucking know
Riot tonight, everybody let's go!
Gonna start a fight but with who? I don't fucking know

It doesn't take a big man to knock somebody down
Just a little courage to lift him off the ground
It doesn't take a big man to knock somebody down
Just a little courage to lift him off the ground

This world is not what it seems
These beer balls are ruining my dreams

Go!

Stabbed in the back one too many times to count
Master of the sucker punch
Burned his bridges from the past.
Beaten and attacked
But no one seems to give a shit
Cause he had it coming you made your bed
Now sleep in it!

It doesn't take a big man to knock somebody down
Just a little courage to lift him off the ground
It doesn't take a big man to knock somebody down
Just a little courage to lift him off the ground

This world is not what it seems
These beer balls are ruining my dreams
