

# Drowning Pool, Step Up

1 2 3 go

Broken yeah you've been livin  
On the edge of a broken dream  
Nothing yeah thats the only thing  
You'll ever take away from me

I'm never gonna stop  
An't never gonna drop  
Ain't no different than it was before  
So take some good advice  
You'd better stop and think twice  
'Fore you take your first step out that door

If you wanna step up (step up)  
You're gonna get knocked down (knocked down)  
If you wanna step up (step up)  
You're gonna get knocked down  
You had your chance to walk away  
Live to see another day  
If you wanna step up (step up)  
You're gonna get knocked down (knocked down)  
You're gonna get knocked down

Suffering yeah thats the only thing  
Here thats left for you  
Nothing yeah thats the only thing  
You're ever gonna fuckin' do

I'm never gonna stop  
An't never gonna drop  
Ain't no different than it was before  
So take some good advice  
You'd better stop and think twice  
'Fore you take your first step out that door

If you wanna step up (step up)  
You're gonna get knocked down (knocked down)  
If you wanna step up (step up)  
You're gonna get knocked down  
You had your chance to walk away  
Live to see another day  
If you wanna step up (step up)  
You're gonna get knocked down (knocked down)  
You're gonna get knocked down

You're gonna get knocked down  
And now you've crossed that line  
You must be out your mind  
No

-Solo-

If you wanna step up (step up)  
You're gonna get knocked down (knocked down)  
If you wanna step up (step up)  
You're gonna get knocked down  
You had your chance to walk away  
Live to see another day  
If you wanna step up (step up)  
You're gonna get knocked down (knocked down)  
You're gonna get knocked down

You're gonna get knocked down
