

Dru Hill, The Love We Had Stays On My Mind

I just can't believe it girl
I can't believe that it's over
But I'm your man, and I'll be alright
But still, the love we had, stays on my mind

Verse 1

Lately babe, I've been thinking
How good it was when you were here
And it ain't the wine that I been drinking
For once I feel my head is clear

Bridge

But early this morning, when I opened my eyes
That old lonesome feeling, took me by surprise
I guess you meant more to me, than I realized
The love we had stays on my mind
The love we had stays on my mind

Verse 2

And baby girl, I've been remembering
The good times that we used to share
My thoughts of you, don't have an ending
And the memories of you are everywhere

Bridge

But why should I tell you
It's not your concern
You win some, you lose some
Well, I've lost and I've learned
Sisqo's so lonely with no place to turn
And at the end, I find...
Yes I do

Pre-Chorus

The love we had stays on my mind

Chorus

Girl if you were nearer
If you had a mirror
Maybe you could count my tears
And if you were nearer
It would all be clearer
How I wish that you were here
(How I wish that you were here)

Verse 3

And baby girl
I was tired
So I laid down to dream for a little while
But lately I've been so, so uninspired
Without the comfort of your smile

Bridge

But I'm not complaining
Cause that's how it goes
There's always some heartache
In this world I suppose
But you can't imagine
But nobody knows
The love we had stays on my mind
The love we had stays on my mind...
