

# Dru Hill, What Are We Gonna Do?

&quot;What Are We Gonna Do&quot;;

[Intro:]

Whispers passed in silence  
Two lovers passing in the night  
A love that's left and hopeless  
That can never survive

[1] - What are we gonna do  
What are they gonna to say  
Where are we gonna to go  
When they find out

What are we gonna do  
What are they gonna say  
Where are we gonna go  
When they find out

Sing your song, sing your song, sing your song  
Really don't know you well  
Got to get to know me too  
So see, we can make this work  
Through your friends won't approve

See, we can't let them know  
Exactly what's going on  
Cuz they won't understand  
What we have between us

[Repeat 1]

Woody, Woody, Woody, Woddy  
I know we may be rushing  
There's no time to think it through  
Cuz when love overcomes your heart  
There's nothing you can do

Misery loves company  
By now you should know  
People always have advice about being together  
When they're all alone

I cry  
I cry, I cry, late at night baby  
Inside  
Inside my heart babe  
I was all alone  
Don't you let no God damn body come near  
And tear our love apart  
Cuz I love you girl  
You're all my world  
So what are we gonna do

What are we gonna do  
I feel so afraid, babe  
Feel like a baby  
Just hold me darling  
And let me know  
I need to know  
I've got to know  
What are we, oh baby

[Repeat 1 x2]

What are we gonna do  
Oh well, well, well, well, well, well  
Oh baby, well, well, well, well
