

Drugstore, One Night In Your Arms

I could buy me a castle in a country spot
I could have a house made out of gold
All the things
A girl can have
Have got me feeling alone
Thought I'd let you know...
I could have my summer in the South of France
And I could have the longest string of pearls
All the things
That I can have
Have got me feeling alone
Thought I'd let you know...
My life glitters and shines
But my heart is star spangled cold
If only I could have
One night in your arms
Then I'll have it all
I could spend my whole life in a crystal shed
And I could travel round and round the world
All the things
That I can have
Have got me feeling so cold
Thought I'd let you know...
My life glitters and shines
My heart is star-spangled cold
If only I could have
One night in your arms
Then I'll have it all
Guess I'll buy me a castle in a country spot...
