

Drugstore, Slide

So, goodbye
I hope the place you're going to, is fine
Every effort we'll put in to our lives
That every single thing we do is right

Something came over you
Yeah, something came over me too
Yeah, something came over me too

You will find
All the things you have will slide away
Doesn't matter if you waste your time
'cos everyday you spent with me
Was fine

But something came over you
Yeah, something came over me too
Yeah, something came over me too

Goodbye
Yeah, I hope the place you're going to
Is fine...
