

# Dubstar, Stay Together

Hello darling  
No time to hide  
I'm living in this moment  
We're side by side  
No one else will  
Ever be this smart  
These were always true  
From the start  
And I always said together  
Be together

I can see  
I've often been  
Living here in  
The future between  
You and me  
And the dreams  
I hold for you  
In my heart  
These were somehow here  
From the start  
What can words say  
More than together  
Stay together

Laugh and smile  
There's a hundred miles  
Travel forward  
And when we arrive  
We're together  
We're together  
We're together

I can see  
You've hated me  
I can hear it in the laughter  
Between you and me  
I will steal my love for you  
From the skies  
What can words say  
More than my eyes  
And for all this time  
Together  
Stay together

Laugh and smile  
Leave a hundred miles  
Travel forward  
And when we arrive  
We're together  
We're together  
We're together

I see  
It's always been  
I believe in the future  
It's you and me  
I will steal my love for you  
From the skies  
There are no more words than  
Together  
Be together
