

# Duct Tape, Pawn To King

So let it be  
life wasn't what it seemed  
the people want what the people get  
am i just another pawn in a set

cause its getting close and my vision's clouded  
i'm losing grip of what i founded here

cause if you never believe that you can take it  
you better beleive you'll never make it here

I thought i figured you out  
but your just playing games  
I'm just a face in the crowd  
cause I just feel the same  
as everyone else  
though I am different i swear

They let you live  
just cause your alive  
they dip you in and and check for vital signs  
then wait and watch you die

I thought i figured you out  
but your just playing games  
I'm just a face in the crowd  
cause I just feel the same  
as everyone else  
though I am different i swear

I thought i figured you out  
but your just playing games  
I'm just a face in the crowd  
cause I just feel the same  
as everyone else  
I'm different i swear, i swear

i figured you out  
your just a face in the crowd  
your the only one

I thought i figured you out  
but your just playing games  
I'm just a face in the crowd  
cause I just feel the same  
as everyone else  
though I am different i swear

I thought i figured you out  
but your just playing games  
I'm just a face in the crowd  
cause I just feel the same  
as everyone else  
though I am different i swear
