

Duels, Silver And Gold

He says he'll take her to the backspace
Take her to ()
You're drinking like a dead man
What would you know anyway
What have you seen

Says this behaviour is not normal
People just don't do this
You want me to just follow
Why would I want to anyway
I know where you've been

She says

Silver And Gold
Silver And Gold
What were you
Don't go there
It passed by your window

We go wherever there is music
Then try to spend ()
Everything's a landslide
I don't care anymore
I want to give in

You say

That's why paper rock you like a snowball
Then, then you lose it
You have to tell me where you are
You've got to, got to, got to, got to, got to, got to
I just realised what you meant
After all

Silver And Gold
Silver And Gold
What were you
Don't go there
It passed by your window (x4)

She said!

Silver And Gold
Silver And Gold
What were you
Don't go there
It passed by your window (x4)
