

# Duit, Understand In Time (feat. Govales)

Heart frozen in sickness  
Time moving with slow motion.

Shot fire, now i'm opened  
Now your eyes are a weapon,  
oh,  
How we did get here?  
How we did get here?  
oh,  
I just wanna go back  
I wanna go...

Go back, back, back...  
Wanna go, wanna go back, back,  
Shred my words and call my bluff,  
I need your touch, I wanna go back,  
(back, back, back, back...)

No, I never said a right line,  
You my heart, you my lifeline,  
Not gonna change your mind,  
You'll understand in time.

No, I never said a right line,  
You my heart, you my lifeline,  
Not gonna change your mind,  
You'll understand in time

No one is rich enough to buy back a past,  
In these moments we shared a line and make them last(?),  
No one can buy back the past,  
In these moments we shared a line and make them last(?),

So, it's one hand on the wheel,  
Racing to your heart in a dynamite field,  
Try find the words that a cut through the steel, steel...  
Steel that I forged with my own hands,  
Try gonna back to your old man,  
That one you love, I know him,  
In there somewhere, story ain't done there,  
I know you mad in the moment,  
Don't give it up, don't make sens done it,  
See, we built strong foundation,  
Don't waste it, just stay patient,

Just stay true, just stay true oh...

No, I never said a right line,  
You my heart, you my lifeline,  
Not gonna change your mind,  
You'll understand in time.

No, I never said a right line,  
You my heart, you my lifeline,  
Not gonna change your mind,  
You'll understand in time

oh baby...

No, I never said a right line,  
You my heart, you my lifeline,  
Not gonna change your mind,  
You'll understand in time.
