

# Dune, Winter Kills

Green, in your love  
On bright days  
You grew sun blind  
You thought me unkind  
To remind you  
How winter kills  
Lost in daydreams  
You drove too fast  
And got nowhere  
You rode on half fare  
When you got too scared  
How winter kills  
Tear at me searching for weaker seams  
Pain, in your eyes  
Makes me cruel  
Makes me spiteful  
Tears are delightful  
Welcome your nightfall  
How winter kills  
I'll tear at you searching for weaker seams  
How winter kills, how winter kills... (6x)
