

Dune, Winter Kills

Green, in your love
On bright days
You grew sun blind
You thought me unkind
To remind you
How winter kills
Lost in daydreams
You drove too fast
And got nowhere
You rode on half fare
When you got too scared
How winter kills
Tear at me searching for weaker seams
Pain, in your eyes
Makes me cruel
Makes me spiteful
Tears are delightful
Welcome your nightfall
How winter kills
I'll tear at you searching for weaker seams
How winter kills, how winter kills... (6x)
