

# Duran Duran, Anyone Out There

I never found out what made you leave  
And now the day's over, just an hour to go  
I tried to phone last night, but you never answered  
Just left me ringing on the line  
Outside  
Is there anyone out there?  
Anyone else outside?  
Oh, outside  
Is there anyone out there?  
Anyone else outside?  
My face in the mirror shows a break in time  
A crack in the ocean that does not align  
I tried to sleep last night, but I caught you dreaming  
About days we used to wonder away  
Outside  
Is there anyone out there?  
Anyone else outside?  
Oh, outside  
Is there anyone out there?  
Anyone else outside?  
Look out of the window,  
Maybe you can call by my name  
Another night over, babe,  
Another light comes on in vain  
I tried to phone last night, but you never answered  
Just left me ringing in the air  
Is there anyone out there? (anyone out there) Oh...  
Anyone out there? (anyone out there) Oh...  
Anyone out there? (anyone out there) Oh...  
Anyone out there? (anyone out there) Oh...  
Anyone out there? (anyone out there)
