

# Dust For Life, Dirt Into Dust

Not even time can kill me  
I am the candle that burns an endless flame  
I breathe the sand of your waiting  
and all the darkness and hate that you embrace

Nothing can buy me  
Nothing can tie me down  
Nothing can waste me away  
Nothing can stop me to rust I am alive  
Even as dirt into dust

And I can see for miles  
Into the desert of your love  
Now the cobra rises up to greet me  
Rose petals rain down as she kisses me sweetly

Chorus

Yeah and I am not afraid  
My love is strong and alive  
and I will never desert you

And I will stay alive  
I will stay alive

Chorus
