

Dusty Springfield, I Can't Help The Way I Don't Feel

(Tom Shapiro / Chris Waters / Michael Garvin)

You want me to say I love you too
There's nothing in the world I'd rather do
You will never know how hard I've tried
But I can't change the way I feel inside

It's nothing that you did or haven't done
Who knows what makes somebody love someone?
I wish that's the way that we could be
But love is up to love and not to me

I can't help the way that I don't feel
Take what isn't there and make it real
You're where I should be going
But my heart is at the wheel
And I can't help the way that I don't feel

It's nothing that you did or haven't done
Who knows what makes somebody love someone?
I wish that's the way that we could be
But love is up to love and not to me

I can't help the way that I don't feel
Take what isn't there and make it real
You're where I should be going
But my heart is at the wheel
And I can't help the way that I don't feel, oh

I can't help the way that I don't feel
Take what isn't there and make it real
You're where I should be going
But my heart is at the wheel
And I can't help the way, the way that I don't feel, oh, oh
