

Dusty Springfield, I've Got A Good Thing

(Jerry Ragavoy / Mort Shuman)

I got a good thing
I got a good thing
I got a good thing going

Take the sun and take the moon
And stars that shine so bright
All I need is my guy
And everything's all right

Everything about him thrills me
The way he looks at me just kills me
He's got a way of getting to me
Every kiss just goes right through me

I got a good thing
You know I got a good thing, baby
I got a good thing going

Take the rainbow from the sky
Oh, I don't really care
I will have a pot of gold
As long as he is there

I never knew such sweet affection
And it's all in my direction
If he left there's no mistaking
My poor heart would start to break and

I got a good thing
You know I got a good thing going
I got a good thing going, yeah

I got a good thing, yeah
You know I got a good thing going
You know I got a sweet thing baby
Everything is everything, baby
Everything is uptight, all right, out of sight
Yeah, I got a good thing going, yeah
You know I got a good thing
