

Dusty, The Fire And The Rain

The fire and the rain

I wanna feel the way you feel
I know you'll take me up and down
But before you start
I will teach my heart
To be steely
Woah

And when I'm feeling lonely
And baby - sorry
I wanna get the feeling to fight for you
And when you shine bright
Your love is real light
And I'll forget the pain just to reach to you

I feel the fire and the rain
The game you play is no escape for me baby
Dance in the fire and the rain
Destiny Child - you can really believe me
I feel the fire and the rain
The game you play is no escape for me baby
Dance in the fire and the rain
Destiny Child - you can really believe me
The fire and the rain

I'm lookin' for a way to be
I'm never gonna let you down
Just in case you find
You can change your mind
And be leavin'

And when I'm feeling lonely
And baby - sorry
I wanna get the feeling to fight for you
And when you shine bright
Your love is real light
And I'll forget the pain just to reach to you

I feel the fire and the rain
The game you play is no escape for me baby
Dance in the fire and the rain
Destiny Child - you can really believe me
I feel the fire and the rain
The game you play is no escape for me baby
Dance in the fire and the rain
Destiny Child - you can really believe me
The fire and the rain
