

# Dwele, My Lova

[Intro:]

Wont you, come ride with me, my lady  
Maybe you can be my lova say baby be my lova  
Yeah yeah

[Verse 1:]

Say baby are you called my lady  
Its about 80 degrees and my AC is acting shady  
Why you got on them clothes covering up your body  
U can lose them trust me youll still be a super hottie  
Say ma, I know youre a superstar  
But theres someone down here who swears he dont know who you are  
Im gon introduce you, girl dont act like that  
Im just playing u know Im just saying that to make u mad

[Hook:]

Wont you be my lova my lova [x2]

[Verse 2:]

Say baby, if I pinch you here  
Will the other respond like a twin would  
And on a scale from 1 to10 I give both ya babies 12  
Like my Kenwoods  
Hey lova, do you see another  
Its just me so why you hiding under all them covers  
Bring them 12s on over  
Ill touch till chill bumps gather around just to see whats popping  
Then there will be no stopping -- ah nah babe  
U on fire ma and thats all I want  
Touch the CD player and lets see whats on  
Lets dance while we sip come on you and me  
All Im saying is can we get closer baby

[Hook:]

Wont you be my lova, wont you be my lova baby [x2]

[Verse 3:]

Say lova,  
If I find another, spot on your body I can connect the dots and draw the covers  
U know that ya candy candy eye dont mind getting my covers sticky  
If I happen to watch your frame dont be ashamed to get loud and kickin  
If you need to call my name, do ya thang, truth be told  
If I have to call ya name, that means that one night of united souls

[Hook:]

Baby wont u please be my, if you really dont mine wont u be my lova

crbt2('Dwele','My Lova')
