

# Dynamite Boy, Julie H.

It was hard to let you go  
Harder yet to hear those words  
And everyday since then  
I've been tryin' to break your curse  
For all those times you made me wonder why I live  
I'd paralyze my hate  
with all the thoughts of love  
that you'd give to me...  
as long as I live I can never forget you  
even though I try with all my heart  
as long as I live I can never forget you  
even though I try with all my might  
well it's five years later now  
and my heart's no longer numb  
the way we acted was so childish and dumb  
I was just a toy to you but you never really cared  
Cuz it's so clear to me that the feelings were so strong  
you were scared of me
