

# Dzeko & Torres, Home (feat. Alex Joseph)

Further from where you lost  
All you use to know  
Closer to being back but so far from coming home  
You need to know that hope can cover up the scars  
Inside your broken heart

Coz it's all about you my love  
It's all about you, all about you  
Coz it's all about you my love  
It's all about you, all about you  
What does it feel like falling from star light  
To come back home?  
Live on the outside  
Just for this one night  
Then you'll know  
Come back home /4x

What does it feel like to come back home?  
Come back home, home, home  
Live on the outside  
Then you'll know  
Come back home

Stalking abandon space  
Falling through silent crowd  
Looks like you save from grace  
But I hear you screaming out  
Let me look behind the lines  
To where things fall apart  
Will go back to the start

Coz it's all about you my love  
It's all about you, all about you  
Coz it's all about you my love  
It's all about you, all about you  
What does it feel like falling from star light  
To come back home?  
Live on the outside  
Just for this one night  
Then you'll know  
Come back home /4x

What does it feel like to come back home?  
Come back home, home, home  
Live on the outside  
Then you'll know  
Come back home
