

# E-Type, We Gotta Go

We gotta go  
We've got nothing to lose now  
Time has come for us to get out  
We gotta go  
If we're going down, well  
Let's go down in flames  
Gotta go now  
Gimme something,  
I can't stand waiting  
Don't wanna live you life in a rut, so get in  
Coming on strong like a force of nature  
Why can't you let it go away....  
We gotta go  
We've got nothing to lose now  
Time has come for us to get out  
We gotta go  
If we're going down, well  
Let's go down in flames  
I'm ready to launch  
I've got my fingers on the trigger  
You can't keep me down  
Cause i'm only getting bigger  
I'm ready to go now  
I'm ready to leave now  
I'm ready to go away.  
Chorus  
Don't point your finger,  
you can't take away my pride  
Cause I'm the wave  
that will turn the tide  
I'm the scream you will hear  
I'm the one you will fear  
You can only watch me go away  
Chorus
