

# Eagles Of Death Metal, I Only Want You

When I feel like you get too close I put you right down  
I never really leave I just slip away  
And it's not my purpose to break your spirit  
I'm not really interested in what's in your heart  
I don't want you to fall in love now so please don't start

Chorus:

I only want you (4x)

I know that it's terribly cruel but then I like it  
Because you tried to love me I just can't stay  
And I'm not gonna lie just to spare you feelings  
Cuz watching you suffer feels much better to me  
I'm about to lay destruction on you  
I'm not the lover man that you want me to be  
I said well...

(CHORUS)

Now you see once you get too close  
I put you right down  
I never really leave I just slip away  
But it's not my purpose to break your spirit  
I'm not really interested in what's in your heart  
But now I have to lay destruction on you  
I'm not the lover man that you want me to be  
I said well...

(CHORUS)
