

# Earshot, Asleep, I Lie

I can't stay forever, and you're too insulting to me darling  
I can't live forever, and be who they want me to be and...

chorus:

I, I cannot pretend, I will not surrender these dreams in my head  
I, I will not disguise, they cannot cover the scars in my eyes  
asleep I lie

fall like I do  
will this be the first time for you  
walk on me, I walk on you  
stuck on me, stuck on you

(chorus)

all the things they're telling me, make me wanna up and leave  
but I'm not sure that now's the time, and I'm not sure of anything  
but even if I crossed the line, at least I'm being true to life  
It's me out with the stars tonight, its me out with the stars tonight

(chorus)
