

# Earth, Wind And Fire, Beauty

Earth Wind & Fire

Oh when I look around me  
This old world seems so troubled to me  
\* Does no one see  
The beauty that surrounds them  
Take a look around you now (sometimes)  
Pretty little blossoms, oh yeah  
Just as sweet as can be, yeah yeah  
(You know) It troubles my mind  
These troubled times we need love  
You know it troubles my mind  
These troubled times we need love  
The world needs love, let there be love  
Open up your heart and love more open up  
Open up your heart and love more open up  
Open up your heart and love more open up  
Open up your heart, give a little love  
love, love, love, love

(\*Repeat)

\*\*It troubles my mind  
These troubled times

We need love, love, love, yeah

(\*\*Repeat and fade)
