Searching in the sky one night, while looking for the moon I viewed a mighty light approching in a zoom Need was there to tell someone of my discovery Fifteen seconds later, a light appeared in front of me To my surprise, there stood a man with age and mystery His name was Jupiter and came to visit me

The name is Jupiter, from the galaxy I came to meet you, to make you free Deliver to you a flower from A distant planet, from where I come

Keep your eye on Jupiter, such beauty in the sky We will wait for your return in the by & Dy Keep your eye on Jupiter, memories we shall fulfill Just to view a brighter day, and do a righteous will

Watching and considering my visual state of mind The flower fragrance help reveal to me the sign The sigh of love, I had confessed to live and really know The sign of love which I had failed my fellowman to show

The name is Jupiter, from the galaxy I came to meet you, to make you free Deliver to you a flower from A distant planet, from where I come
