

Earth, Wind And Fire, Wouldn't Change A Thing A

Philip Bailey & Frankie Blue

If I were king and I ruled the world
I would make it safe for the boys and girls
There's so much I would do
But I wouldn't change a thing about you

If the summer could last till spring
Or a fallen sparrow could sprout
new wings
Then I'd change that too
But I wouldn't change a thing about you.

All the love that you've been giving
All the joy that we've been living
through
I wouldn't change a thing about you

Bridge:
Too little love and too much hate
When times get tough
Looking for something 'cause
I just can't get enough
But when I'm feeling down
You're there to see me through
I wanna hold ya, touch ya
Give you love all the time
'Cause when I'm with you, girl
I feel like the world is mine
Tell you baby, there's nothing
I wouldn't do for you

The sun comes out when I hear your name
I get butterflies, do you feel the same?
That's what love can do
No, I wouldn't change a thing about you

In this imperfect world we're living
Perfect love like ours is rare, it's true
No, I wouldn't change a thing about you

la la la la
la la la la
I wouldn't change a thing about you
