

# Earth, Wind & Fire, Earth, Wind & Fire

Are you satisfied  
In your life and time  
Does it clear you mind  
With all the hurt you find

Built on Mother Earth  
They were meant to stay  
Nations bloom today  
On gifts of yesterday

Born of the Earth, are nature's children  
Fed by the Wind, the breath of life  
Judged by the fiery hands of God

World goes by the hand  
Of the master plan  
Can't you understand  
You're but a grain of sand

Do you need a guide  
To make you feel satisfied  
Head to the sky  
Will tell you why

Born of the Earth, are nature's children  
Fed by the Wind, the breath of life  
Judged by the fiery hands of God
