Searching in the sky one night, while looking for the moon
I viewed a mighty light approaching in a zoom
Need was there to tell someone of my discovery
Fifteen seconds later, a light appeared in front of me
To my surprise, there stood a man with age and mystery
His name was Jupiter and came to visit me

The name is Jupiter, from the galaxy
I came to meet you, to make you free
Deliver to you a flower from
A distant planet, from where I come

Keep your eye on Jupiter, such beauty in the sky
We will wait for your return in the by & by
Keep your eye on Jupiter, memories we shall fulfill
Just to view a brighter day, and do a righteous will

Watching and considering my visual state of mind
The flower fragrance help reveal to me the sign
The sigh of love, I had confessed to live and really know
The sign of love which I had failed my fellowman to show

The name is Jupiter, from the galaxy
I came to meet you, to make you free
Deliver to you a flower from
A distant planet, from where I come

The name is Jupiter, from the galaxy
I came to meet you, to make you free
Deliver to you a flower from
A distant planet, from where I come
