## Earth, Wind & Fire, Mighty Mighty

Maurice White & amp; Verdine White

Walk around, why wear a frown Say little people, try to put you down What you need, a helpin' hand All the strength, at your command

How's ya faith? Cause ya faith is you Who you kiddin', to yourself be true Spread ya love, for a brighter day For what ya search, you'll find a way

We are people, of the mighty Mighty people of the sun In our hearts lies all the answers To the truth you can't run from

Eagle flies, every seven days Still cryin the blues, all about ya pay What ya gonna do? Bout your living thang Will ya make it better, or just complain

Everday is real, don't run from fear Cause better days are very near There are times when you are bound to cry One more time, head to the sky

We are people, of the mighty Mighty people of the sun In our hearts lies all the answers To the truth you can't run from
