

# Easily amused, All need love

Oh take away the pain  
Learn to walk away  
Well it's over now  
Gone far beyond the door  
You will be no more  
Well it's over now  
Never come again, no  
Still swift becomes your leaving us  
Well we all need love  
All need love  
If I could find a way  
To have you here today  
Yeah you know I would  
Cause you were brighter than the sun  
You're missed by everyone  
But we won't hold you down  
If there was just good reason  
You faded like a season  
I guess it's your time now  
Though we're falling down again  
Yeah I feel we're falling down
