

# East West, For Every Wish

Watching from the shadows,  
stealing all that's left.  
Great deceiver,  
(so) beautiful.  
Fading moments,  
passing like years.  
Wish everything  
was perfect.

I'm all I'll ever need,  
so go away.  
Keep your lies.  
For every wish,  
there's hope and time.

Now it's complicated,  
I wish I was medicated.  
There's gotta be some way out of here.  
Looking for release  
to end the greatest need.

I'm all I'll ever need,  
so go away.  
Keep your lies.  
For every wish  
there's hope and time. (x 2)

GOD HELP ME!!  
GOD HELP ME!!

Gotta peel away the skin,  
just find The Truth in here. (x 2)

I'm all I'll ever need,  
so go away.  
Keep your lies.  
For every wish,  
there's hope and time. (x 2)

For every wish...
