Easyworld, When You Come Back I Won't Be He

Don't tell me love is worth the waiting, You kept me hanging all these years, But it's so good to feel this patience running out, When you come back I won't be here.

So why you hanging onto misery? Don't you see there's nothing left to fear, Cos if you're chewing something ugly, just spit it out, When you come back I won't be here.

Dear leader I am but a nothingness, But you're good at looking all sincere, But you've been getting everything you want for long enough, When you come back I won't be here.

There are no prizes here for tolerance, We cannot all be insignificant, And if they still don't understand I'll just spell it out, When you come back I won't be here.

Dear leader I am but nothingness, One little brick in your career, And if by any chance you hear me, well listen up, When you come back I won't be here, No. When you come back I won't be here, No. When you come back I won't be here.
