

# Echo Image, Skulk (Extended Kit Mix)

i lost a fragment of myself  
made me understand what i've become  
falling like i always did  
made me take control  
felt the weakness lose its touch  
leaving me to find what i had lost  
my heartbeat rhythm found its phase

understand me now  
listen to the words i'm saying, baby  
i found my soul  
and it keeps me hanging on  
understand me now  
the frequency of the beat gets higher  
i'm on my own  
and it keeps me hanging on

time passes slowly standing still  
moving in to make that one last kill  
embracing me longing hands  
takes me far away  
gives me comfort i won't need  
in this world i am my only friend  
because no one seems to know my name

understand me now  
listen to the words i'm saying, baby  
i found my soul  
and it keeps me hanging on  
understand me now  
the frequency of the beat gets higher  
i'm on my own  
and it keeps me hanging on

understand me now  
listen to the words i'm saying, baby  
i found my soul  
and it keeps me hanging on  
repeat

understand me now  
the frequency of the beat gets higher
