

# Echo & The Bunnymen, Hide And Seek

Hide and seek, cloak and find  
All the colours in your mind  
Tied together, Sunday's clown  
Traced and feathered, laced and bound  
It's you now... yeah  
Everybody's looking for you now... yeah  
I know you know we know I'm going down  
Help me get my feet back off the ground  
Come with me and I will show  
What not to be, where not to go  
Chase the shadows, through black holes  
Find the darkness, in your soul  
It's me now... yeah  
Everybody says it was me now...yeah  
Everybody's looking for me now  
I know you know we know I'm going down  
Help me get my feet back off the ground  
I know you know we know I'm going down  
Help me get my head back in the clouds  
Hide and seek, cloak and find  
All the colours in your mind  
Tied together, Sunday's clown  
Traced and feathered, laced and bound  
I know you know we know I'm going down  
Help me get my feet back off the ground  
I know you know we know I'm going down  
Help me get my head back in the clouds
