

# Echo & The Bunnymen, Make Me Shine

I'll be with you in your Summer  
Winter Spring and Fall days  
You and me, yeah we've got each other  
I'll be there... always  
Love it when you say  
I'm the gold inside your goldmine  
And I love the way  
You just make me shine  
When our ship hits stormy weather  
We'll ride the tidal waves  
You and me sailing seas together  
In the same boat... always  
Love it when you say  
I'm the gold inside your goldmine  
And I love the way  
You just make me shine  
I'll be with you in your Summer  
Winter Spring and Fall days  
You and me, yeah we've got each other  
I'll be there... always  
Love it when you say  
I'm the gold inside your goldmine  
And I love the way  
You just make me shine
